

What is claimed is:

1            1(currently amended).     A support for a shower head, comprising:  
2            a mounting fixture for mounting the support such that the support is  
3            adjustable,  
4            an arm jutting out of the mounting fixture,  
5            a receptacle ~~for~~ for a shower head arranged in the vicinity of ~~a the~~ far  
6            end of the arm **away from the mounting fixture, which receptacle is**  
7            **configured such that the shower head is detachable from said**  
8            **receptacle**, and  
9            at least one additional shower fixture attached to the arm,  
10           **wherein the shower head is supplied with water by a hose and**  
11           **wherein the additional shower fixture is arranged to be supplied with**  
12           **water independently of the shower head.**

Claim 2 is canceled.

1            3(currently amended).     **The [A]** shower support according to claim  
2            1, ~~wherein having~~ a channel **extends** passing through the arm and **leads**  
3            ~~leading~~ to the additional shower fixture.

1            4(currently amended).     **The [A]** shower support according to claim  
2            1, wherein the arm comprises a length of hollow, profiled stock, at least from  
3            the mounting fixture to the additional shower fixture.

1            5(currently amended).     **The [A]** shower support according to claim  
2            1, wherein the additional shower fixture is arranged between the mounting  
3            fixture and the far end of the arm.

1            6(currently amended).     **The [A]** shower support according to claim  
2            1, wherein a direction of a jet exiting the additional shower fixture is adjustable.

7(currently amended). **The [A]** shower support according to claim  
1, wherein the additional shower fixture is mounted on a side of the arm jutting  
from the mounting fixture.

8(currently amended). **The [A]** shower support according to claim  
1, wherein at least one said additional shower fixture is mounted on a  
underside of the arm jutting from the mounting fixture.

9(currently amended). **The [A]** shower support according to claim  
1, having several additional said shower fixtures and a water-supply conduit  
common to all the additional shower fixtures.

10(currently amended). **The [A]** shower support according to claim  
1, wherein the additional shower fixture is nondetachable.

Claim 11 is canceled.

12(currently amended). **The [A]** shower support according to claim  
1, wherein the arm is pivotable relative to the mounting fixture about a  
horizontal axis orthogonal to a longitudinal axis of the arm, ~~on a linkage on the~~  
~~mounting fixture.~~

13(currently amended). **The [A]** shower support according to claim  
12, wherein ~~a~~ the water conduit passes a pivotable connection of the arm to  
the mounting fixture through the linkage.

14(currently amended). **The [A]** shower support according to claim  
1, wherein the arm is configured in the form of a fork.

1           15(currently amended). The ~~A~~ shower support according to claim  
2           14, wherein the additional shower fixtures are arranged on outer faces of tines  
3           of the fork.

Claims 16 and 17 are canceled.
